EDUCATION

2023 - 2027

DR.N.G.P.INSTITUTE OF TECHNOLOGY, COIMBATORE

- B Tech Artificial Intelligence & Data Science
- CGPA - 8.2/10 (Till 5th Semester)

2021 - 2023

SRICHAITANYA JUNIOR COLLEGE, VIJAYAWADA

- Board of Intermediate Education AP (MPC)
- Percentage - 86

SKILLS

- Machine Learning, Data Analytics
- Generative AI, LLMs
- NumPy, Pandas, Scikit-learn
- MySQL, SQLite
- Git, GitHub, VS Code, Power BI
- Java, Python
- HTML, CSS, JavaScript, Bootstrap, Flask

LANGUAGES

- Hindi
- Telugu
- English
- Tamil

PROFILE

Aspiring AI Engineer passionate about developing intelligent solutions for real-world challenges. Strong analytical thinker with hands-on experience in building impactful projects and exploring emerging AI technologies. Committed to continuous learning, innovation, and contributing to meaningful advancements in the field of Artificial Intelligence.

PROJECTS

- AI-Driven Community Response and Volunteer Coordination Platform** JULY 2025 - MAR 2026
 - Developed a real-time disaster response platform to coordinate volunteers, resources, and emergency assistance.
 - Integrated location-based services, role-based access, and real-time communication for effective disaster management.
- Predictive Analytics for Animal Health** JULY 2024 - MAR 2025
 - Built a machine learning-based disease prediction system to support early diagnosis in animal healthcare.
 - Applied data preprocessing, feature engineering, and deployed the solution as a web application.
- Fake Image Detection** AUG 2023 - MAR 2024
 - Developed a deep learning model to classify real and manipulated images using computer vision techniques.
 - Improved model performance through data preprocessing, augmentation, and evaluation using standard metrics.

INTERNSHIP

Full Stack Python Intern - Appin Technology, Coimbatore June 2025 (15 Days)

- Developed web applications using Flask and MySQL.
- Worked on frontend-backend integration.
- Gained hands-on experience in full-stack development.

ACHIEVEMENTS

- Participated in a 24-Hour Hackathon at Nandha College of Technology, Erode, developing a Multimodal Sentiment Analysis Agent capable of analyzing sentiment across multiple data modalities using AI techniques.
- NPTEL Elite + Silver Certification in Human Computer Interaction.
- Built and deployed machine learning solutions using real-world datasets and passionate about leveraging AI to create scalable and impactful solutions.
